LAB 3: Create Storage Account

Task 1:

The screenshot shows the Microsoft Azure portal interface. At the top, there's a navigation bar with the Microsoft Azure logo, a search bar, and a Copilot button. Below the navigation bar, the 'Storage accounts' page is displayed. The page has a header with 'Storage accounts' and a 'Default Directory' link. Below the header, there are several action buttons: '+ Create', 'Restore', 'Manage view', 'Refresh', 'Export to CSV', 'Open query', 'Assign tags', and 'Delete'. A filter bar is present with a search box and several filter buttons: 'Subscription equals all', 'Resource group equals all', 'Location equals all', and 'Add filter'. Below the filter bar, it says 'Showing 1 to 1 of 1 records.' A table with 6 columns is shown: Name, Type, Kind, Resource group, Location, and Subscription. The table contains one record for a storage account named 'storageaccount95175'. At the bottom of the page, there's a pagination bar with '< Previous', 'Page 1 of 1', and 'Next >'. The Windows taskbar is visible at the very bottom of the image.

Name	Type	Kind	Resource group	Location	Subscription
storageaccount95175	Storage account	StorageV2	ThirdResourceGroup	East US	Azure for Students
